Re: Letter of Certification - American Society for Testing and Material (ASTM) Designation: D7036

To the best of my knowledge, Alliance Source Testing, LLC (AST) is operating in conformance with the self-certification requirements of the American Society for Testing Materials (ASTM) Designation: D7036 (as revised), Standard Practice for Competence of Air Emission Testing Bodies. Any documentation related to ASTM D7036 (as revised) is available upon request.

This letter of self-certification is limited in scope to the test methods as identified the current Quality Assurance/Quality Control Management Plan.
